1. Participated with Mr. Wolf, [REDACTED] in a briefing on "Records Management." The briefing was excellent and indicated that a good Records Management Program would save the Agency and the Government a substantial amount of money. Decision as to appropriate action to take at this time was deferred pending further discussion with Mr. Wolf.

4. Listened to [REDACTED] speech on the general subject of "Dollars and Sense." At Mr. Dulles' request explained to him after the meeting that [REDACTED] speech was not a criticism of the Director's policies but, rather, a criticism of the lack of control of funds and accounting of funds by people who were carrying out the approved programs and policies. He was satisfied with this explanation and said that he would like to read a copy of the speech. I have instructed [REDACTED] to submit a copy to Mr. Wolf for transmittal to Mr. Dulles.
